## TO WHOM IT MAY CONCERN

I have the pleasure to certify that I have inspected the foundation of the buildings of Vivekananda Academy at Betai, Nadia and satisfied myself in respect of load-bearing capacity of the walls.

It is further certified that I monitored the construction works of all the buildings including the new building meant for Senior Secondary Classes of the Academy.

The structural designs of the foundation columns and beams were as per P.W.D. norms and the construction works were quite satisfactory.

I wish progress and prosperity of the Academy.
